

Natt Niljianskul

Empathetic & Caring C-Suite Leader | Retail · Online · E-Commerce · Financial Services |

A top-management executive who reads a business top-down and works the hard problems alongside his teams — coaching people into leaders in their own right. His range spans strategy, finance, family business, start-ups and digital transformation; whatever he takes on — teams, systems or balance sheets — he strengthens and develops, helping businesses mature into institutional-grade enterprises that stand the test of time — and stay worthy of their name.

PROFESSIONAL EXPERIENCE

🇹🇭 Bangkok · 🇻🇳 Ho Chi Minh City

2025–26 · Advisor

Chief Financial Officer

Ripples Commerce

- **Joined at the co-founders' invitation and led an organisation with more than 30 people** spanning Finance & Accounting, HR, Management Office (corporate strategy function) and Business Intelligence — carrying four functions through **the most demanding chapter** of a fast-scaling young company.
- **Rebuilt the Finance & Accounting team** and put internal controls and procedures in place from scratch — **clearing two years of statutory backlog** — while carrying the company abroad: **setting up Ripples Commerce Vietnam, the first overseas location, in Ho Chi Minh City.**
- **Took over and ran HR as de-facto Chief People Officer** — recruiting, retention, engagement — tackling the root cause that had been holding the whole business back, and turning it into **a place strong talent wanted to join.**
- **Championed AI and data across the organisation** — **empowering people to use AI rather than be replaced by it** — lifting the company's sophistication far faster than headcount ever could.
- **Re-scoped the original sell-side PE mandate** — counselling the founders to **put substance before the sale**, deferring any transaction until the business could genuinely carry it.
- **Led the fixing and the building in parallel** — from a deficit starting point, where little was in place, to a **compliant, de-risked foundation** on which revenue more than doubled: **THB 282m → 605m.**
- **Stepped out of the executive seat into a co-founders' advisory role** after completing the FY2025 statutory filing, having held the company steady through successive crises. **What was built endures** — the company is on course to break **THB 1 billion** this year (2026).

EXECUTIVE EDUCATION

🇯🇵 Tokyo

2025

Mastering the Table

Julius Bär × Executive School of the University of St. Gallen — a Young Partners Executive Programme chapter in 🇯🇵 Tokyo, Japan

- A near two-week executive programme on **the craft of negotiation** — one chapter of an annual series by **Julius Bär, IMD and the Executive School of the University of St. Gallen**, rotating its theme and host city each year.

- From game theory and tactical empathy to a **former FBI hostage negotiator's keynote** — alongside rare encounters with Japan's living legacies: the 18th-generation head of Toraya and the 19th head of the Tokugawa shogunal house.
- Took the **"Seal the Deal" stage** to co-present *"Building Trust, Not Just Deals: Understanding Japanese Negotiation Culture"* — a first-hand case in negotiating trust across cultures.

EXECUTIVE EDUCATION

 Oxford

2025

Oxford Lenses on Leadership

Saïd Business School, University of Oxford

- Leadership examined through genuinely multi-disciplinary **lenses** — how the **architecture of a building and its interior can project a leadership**; how **values travel** from what mattered in the past, to what people prize today, to what they will tomorrow.
- The craft itself, classic and current — **trust and culture, accepting criticism, managing up as deftly as one manages down** — capped by a dedicated session on **AI in leadership**.
- The deepest lens: the **Olympic Gold-Medal Winning Mindset** — preparation as the leader's real craft, the win made long before the day — and the **monster mentality a team builds together**, with someone willing to lead it.

EXECUTIVE EDUCATION

 Tokyo

2025

Shareholders' vs Stakeholders' Capitalism

Hitotsubashi University, School of International Corporate Strategy (ICS)

- Macro-level capital allocation across stakeholders — Japan's harmony-first tradition set against the West's growth-at-pace — and **the position a modern executive must continuously calibrate between the two**.
- Long-held convictions on sustainable, stakeholder-minded leadership, **put into a formal frame and backed by real-world cases**.
- Ranged from **national innovation systems, centres of excellence and hyper-coordinated capitalism** to the quieter lessons: how **a society's culture becomes its corporations' culture** — and Zen mindfulness as the executive's anchor through landscapes that will not stop shifting.

PROFESSIONAL EXPERIENCE

 Bangkok

2024–now

Co-founder & Investor

Hoot Hoot Coffee & Co 

- **Co-founded a specialty-coffee venture with friends** — bringing a **true connoisseur's depth in coffee and matcha**, down to a matcha programme sourced from Yame, Fukuoka.
- **Helped shape the business plan and financial projections** before incorporation — now leaning into operations and finance as the cafe finds its rhythm.
- **Shaping the retail strategy and brand positioning with a chain strategist's playbook** — a premium, provenance-led concept where **storytelling justifies the grade** — honed over years of running far larger retail businesses.
- **Bringing a CFO's discipline to the venture and running it on data** — membership and churn analytics, scenario-modelled pricing — with **the same rigour a boardroom would expect**.
- **Systematising the back office and laying the foundations to scale** beyond the first shop — clean unit economics, and systems built so the next branch **inherits order, not improvisation**.

EXECUTIVE EDUCATION

 Bangkok

2024

The Future of Longevity

Sasin School of Management, Chulalongkorn University × MIT Sloan School of Management

- A multidisciplinary reading of ageing societies and the longevity economy — finance, policy, healthcare and cities — **keynoted by Nobel laureate Robert C. Merton**.
- From the economics of longer lives to **AI-driven health sensing** and the cities ageing societies will need — a slow-motion tsunami crossing every market it touches.
- The leadership case: **foresight here is a head start** — leaders who read demographic change early can strategise and move first, on what is no healthcare story but a **wholesale shift in how societies live, work, spend and age** — and in every business that serves them.

EXECUTIVE EDUCATION

Bangkok

2024

Energize others, Ignite change

Julius Bär × Executive School of the University of St. Gallen — a Young Partners Executive Programme chapter in Bangkok, Thailand

- A peer-learning-based leadership development programme on inspiring people and teams, and leading purposeful change — its scope spanning teams, start-ups and communities.
- Leadership studied from young start-ups to century-old houses — founders still building, and leaders who have endured — through keynotes, workshops and intimate **CEO roundtables**.
- A global cohort — and a programme that made room for **giving back and wellbeing alongside ambition**. Followed a year later to the series' Tokyo chapter.

PROFESSIONAL EXPERIENCE

Bangkok

2023–24

Chief Financial Officer

Marketing Tree

- **Joined a fast-scaled, strongly cash-generative marketing business as its strategic CFO** — brought in to put surplus cash to productive use through investment.
- **Chose to put order first:** instituted financial governance and remediated the accounting and statutory filings — a duty of care taken on beyond the mandate, because **a CFO safeguards the integrity of the numbers**.
- **Evaluated investment avenues for the surplus balance sheet** while rebuilding the discipline beneath it.
- **Stepped away when the governance direction diverged from professional standards** — a short chapter, closed with integrity intact.

EXECUTIVE EDUCATION

Lausanne

2023

Navigating Family Enterprise into the Future (NxGen Executive Education)

International Institute for Management Development (IMD)

- Built on the Institute's **generations-long study of family businesses** — success and failure weighed equally: the structures and governance that carry an enterprise from one generation to the next, and the astounding cases where a **family business became a family enterprise** that endures.
- **The cohort's only outside executive among owners and heirs** — a vantage that drove every exchange deeper and let the whole room reflect more honestly: how different generations think, what successful transition demands, and how legacy is preserved — and sometimes quietly lost — along the way.
- The finance of families, **beyond structure and tax:** family offices, the engagement of private banks, and **foundations built so the enterprise lives on** — giving back to society in a form that outlasts any balance sheet.

PROFESSIONAL EXPERIENCE

Pathum Thani

2021–23

Group Chief Financial Officer

Tungthanasin / Easy Money

- **Arrived by way of a consulting diagnosis** — a two-workstream engagement on financial and organisational strategy, commissioned by the CEO — and was **recruited to execute the plan as Group CFO**.
- **Served a second-generation family business** running an asset-backed lending operation the size of a mini financial institution — as the owning family's **primary finance liaison**, with seats on the Ex-Com, the Investment Board and the Risk Management & Control Board — driving its **professionalisation toward a true family enterprise**.
- **Directed funding, treasury and banking relationships group-wide**, and restructured ~THB 6bn of debt into the capacity to draw up to ~THB 20bn in facilities — **a patient, multi-move re-engineering of the debt stack** that steadily brought the cost of capital down while keeping risk locked through volatile, uncertain times.
- **Financed the group's aggressive post-COVID expansion** — the branch network grew from ~50 to 100+ — as the group's valuation climbed toward ~THB 24 billion.
- **Led the IPO drive end-to-end** — switching the group over to the PAE accounting standard and laying the groundwork for a credit rating — partnering big-4 auditors and investment banks, and carrying the group to **public-market readiness**.
- **Invested as heavily in people as in the balance sheet** — pushing hard on the finance team's development, and designing the **"to-be CFO organisation"** the group would need beyond a listing.
- **Built a digital-transformation team from a standing start** — hire by hire, trained into a team of stars — leaving behind a data-oriented culture where decisions arrive armed with **insight, not hindsight**.

- **Designed a bespoke gold price-risk management and control system** amid wildly volatile gold prices — **bank-grade risk discipline**, re-engineered for a gold-backed loan book.

PROFESSIONAL EXPERIENCE

🇹🇭 Nonthaburi · 🇸🇬 Singapore · 🇲🇾 Kuala Lumpur

2016–21

Chief Strategy & Investment Officer

NamSilpThai – Better Vision Group (now Vision Ventures)

- **Joined a ~70-year-old family business** — the house behind Thailand's first eyewear chain, grown beyond 100 stores across Thailand, Singapore and Malaysia — as the **first outside professional executive** in a top management team that had been, until then, a **family-exclusive club**.
- **Drove the group's strategy on a multi-year horizon** — planning, budgeting, investment and business development — and spearheaded its **pioneering push into e-commerce**, wearing whatever leadership hat each chapter demanded across several business units.
- **Earned an outsider's mandate** the only way a decades-old family firm grants one — patiently, initiative by initiative, until results compounded into trust — culminating in **a seat on the family holding companies' board and strategic committee**, overseeing group strategy, business development and investment from deal negotiation through to execution.
- **Led strategic projects with lasting marks** — a Japan partnership forged through a year of *nemawashi*, its product a **best-seller years on**; a supply-chain redesign that cut lead times from months to weeks and carried the group through COVID; investment and expansion ventures across Malaysia, Singapore and Indonesia.
- Coached and mentored **20+ direct reports** — next-generation family among them — spotting overlooked people, handing them stretch work, and watching several grow into **mainstays who serve the organisation still**.
- **Led the family's PE sell-side exit** — a deal engineered to the **owners' best interests** down to its finest mechanics — attracting a growth fund as strategic investor and beginning the **journey to a family enterprise**; retained as advisor through the consolidation that readied the group for an eventual listing.

EXECUTIVE EDUCATION

🇬🇧 Cambridge

2015

Client-centric Coaching Programme (Executive Coaching)

Business Cognition × University of Cambridge

- A structured **executive-coaching formation** — delivered remotely and through a week in the United Kingdom, sponsored by the firm.
- The first formal frame around an instinct already in daily use: **developing people as the route to results**.

EXECUTIVE EDUCATION

🇸🇬 Singapore

2014–15

Intermediate & Advanced Treasury Risk Management

Wealth Management Institute of Singapore (WMI)

- Bank-grade **treasury risk disciplines, taken to intermediate and advanced level** — sponsored by the firm through the Sage Capital years.
- The formal foundation beneath the **treasury, hedging and risk-framework advisory** of the Sage Capital years — and, a chapter later, beneath a gold-backed balance sheet.

PROFESSIONAL EXPERIENCE

🇸🇬 Singapore · 🇹🇭 Bangkok

2014–16

Associate Director & Deputy Country Head for Thailand

Sage Capital

- **Began in private equity investment in Singapore**, then moved across to the firm's newly-established advisory practice as it stood up — and thrived there.
- **Part of the small team that turned a six-month trial engagement** with one of Thailand's biggest banks **into a multi-year partnership** — re-pitched, expanded, and scaled **roughly sevenfold** at its peak — a client the firm retains to this day.
- **Advised the bank's treasury division** across trading and hedging strategies, treasury risk, and global risk frameworks — **bank-grade disciplines carried into every balance sheet worked on since**.
- **Helped establish the firm's Thai presence** — setting up the local office, recruiting its people, and re-incorporating the advisory practice for cross-border efficiency.
- **Measured the work by what stayed behind**: **client teams that came out stronger**, and strategy, risk and controls that held through the hardest of times.

- **Promoted from Senior Associate to Associate Director & Deputy Country Head (Thailand) within two years** — departing in **exceptional standing**.

PROFESSIONAL EXPERIENCE

 Bangkok ·  Singapore ·  Jakarta

2013–14

Senior Consultant, Strategy & Operations

Deloitte Consulting SEA

- **A senior member of project teams addressing C-level business issues** across Southeast Asia's diverse industries — bringing recommendations to the region's top corporate executives.
- **Led the Technology-Media-Telecommunications (TMT) practice as a subject matter expert**, while also serving as a non-core industry member in Financial Services-Real Estate (FSI-RE).
- **Contributed to engagements of genuinely national weight** — growth strategy and end-to-end value-chain re-engineering for one of Thailand's top property developers, Thailand's strategic blueprint for foreign direct investment, a country strategy for international trade and public services, and Jakarta's transit-payment strategy.

EXECUTIVE EDUCATION

 Tokyo ·  Seoul ·  Beijing

2013

Doing Business in Asia

Hitotsubashi University × Seoul National University × Peking University

- **Selected as Hitotsubashi University's delegate** — on a scholarship granted by the three participating institutions.
- Three weeks of executive education on doing business in **Japan, Korea and China** — taught across the three campuses, in **Tokyo, Seoul and Beijing** — exchanging views with peers drawn from across the globe.

PROFESSIONAL EXPERIENCE

 Tokyo

2012–13

Government Research Scholar

Government of Japan (JASSO) & Hitotsubashi University

- **Appointed research scholar to the Japanese government** — the working obligation attached to the MEXT Young Leaders' Programme's extra grants, carried alongside the MBA itself.
- Worked at what was then the **frontier of Competitiveness & Clusters theory** — Hitotsubashi University's collaboration with Harvard Business School and Prof. Michael Porter — examining which home-country industries could genuinely hold their own on the world stage.
- **Delivered an extensive analysis of Thailand's medical and medical-tourism cluster** — finding a competitive moat near-impossible to replicate, and recommending Japan engage through **strategic partnership and investment rather than imitation** — feeding the government's industrial-policy thinking.

UNIVERSITY EDUCATION

 Tokyo

2012–13

MBA in International Business Strategy & Finance

Hitotsubashi University, School of International Corporate Strategy (ICS)

- Earned the MBA as a **MEXT Young Leaders' Programme** scholar — one of ~15 selected across Asia-Pacific that year, and the only Thai.
- Graduated in the **top decile** of the class, despite arriving as its youngest member.
- **Served in parallel as a Government Research Scholar** to the Japanese government — a professional chapter of its own.
- Filled every term break with **internships at blue-chip houses** — corporate strategy at NEC-Lenovo Japan, investment banking at UBS Japan working a sizeable corporate-debenture issuance, and two full stints in management consulting at BCG — **a rare breadth for a single MBA year**.

PROFESSIONAL EXPERIENCE

 Bangkok

2009–12

Business Development Analyst (CEO Office)

True Corporation

- **One of five in the CEO's backroom Strategy & Innovation unit** — a self-managed team **reporting directly to the President/CEO**, turning his visionary ideas into non-routine strategic projects and business innovations.

- **Helped arrange — and complete — the strategic deals of the group's smart-device era:** on the negotiating team for **Apple's iPhone launch in Thailand**, with co-branding, partnership and investment deals spanning Google, Motorola's early Android, Microsoft, AWS — and big-name VCs and start-ups besides.
- Steered working groups through the company's transformation **from a SIM-and-minutes telco into a smart-device retailer** — business planning, portfolio building, budgeting, financial projections — contributing to the group's leap from market **#3 to #2**.
- **Cut teeth on the harder crafts early:** commercial and regulatory due diligence on a major telecom M&A, and a group-restructuring proposal whose logic was, in hindsight, **years ahead of its time**.

PROFESSIONAL EXPERIENCE

🇬🇧 London

2008–09

Network / Graduate Engineer

Cisco Systems, London

- **Selected into Cisco's competitive London-office graduate scheme** — a rotational programme of twelve graduates, moving across sales engineering, network architecture, embedded software development and corporate functions.
- Worked on **Cisco Aironet firmware development** and on the IT-infrastructure planning for the **London 2012 Olympic Park** site.
- **The engineering grounding remains** — enough to read code, think in its structures, and **build alongside AI** — the quiet enabler of the digital-, data- and AI-transformation leadership that came later.

UNIVERSITY EDUCATION

🇬🇧 Nottingham

2006–08

BEng (Hons) Electronic & Computer Engineering

University of Nottingham

- **Completed the final two years of the dual-degree programme at Nottingham**, on the University's International Student Scholarship — graduating with **upper second-class honours**.
- Final-year research: a **genetic algorithm, coded from scratch**, optimising the structure of optical ASICs — awarded the year's **#1 project** and named on a **publication with the professors**.
- Played in both men's and mixed doubles for the University badminton team through its rise to the **Premier division** of the national university league — winning with the team through habits still in use today: **make your partner, and the team, play better**.

UNIVERSITY EDUCATION

🇹🇭 Bangkok

2004–06 · degree awarded in 2009

BEng Electrical & Electronic Engineering

Thammasat University

- Entered the Thammasat–Nottingham double-degree programme **ranked #1** in the direct placement test — an entry that carried the **Dean's Scholarship** with it.
- Studied Electrical & Electronic Engineering at the Faculty of Engineering (2004–06) before transferring to Nottingham — **the Thammasat degree conferred in 2009** under the Twinning Engineering Programme (TEP).
- **The leadership formed as much outside the lecture hall as in it** — serving on the committees of the university's Cheer Club (CheerTham) and the Thammasat University Student Organisation (TUSU), representing the university in the **Harvard College in Asia Project (HCAP)**, and volunteering at the tsunami victims' relief centre on the Rangsit campus.

ALSO

Advisory Mandates

- **Ripples Commerce** — advisor to the co-founders (2026–present).
- **Vision Ventures Group** — strategy & investment advisor through the post-deal consolidation (2021–22).
- **Tungthanasin Group** — corporate finance & financial-risk advisor; the diagnosis that preceded the Group CFO chapter (2020).

Awards & Scholarships

- **MEXT Young Leaders' Programme** scholarship — one of ~15 across Asia-Pacific; the year's only Thai.
- **Junior Science Talent Project (JSTP)** — the Ministry of Science and Technology's national talent scholarship (via NSTDA), cohort #4; held from Grade 10 onward.
- **Final-year engineering project of the year** — with a publication alongside the professors.

- **An e-commerce group** — overseas expansion, establishing its Malaysia and Singapore entities (2017–18); returned years later to counsel its founders through heavy weather (2023–24).
- **A real-estate firm** — debt restructuring ahead of a looming debenture maturity; a six-week sprint (2023).
- **The Thai subsidiary of one of Japan's largest listed conglomerates** — post-acquisition governance and reporting uplift, brought in fresh from the listing-readiness work at Easy Money (2023–24).

- **Dean's Scholarship, Faculty of Engineering, Thammasat University** — earned by entering the dual-degree programme ranked #1.
- **University of Nottingham International Student Scholarship.**
- **Doing Business in Asia** — its own scholarship, as Hitotsubashi University's delegate.

Teaching & Lecturing

- **Visiting lecturer** (2010–23) — Chulalongkorn University, Kasetsart University (Bangkhen), Thammasat University (Rangsit) and Naresuan University (Phitsanulok) — teaching telecommunication infrastructure, business planning and marketing strategy.
- **Corporate-training instructor**, Cicom Brains Group (2023).

Languages

- **English** — full professional (British English), bilingual proficiency — **IELTS 8.5 overall**.
- **Thai** — native (mother tongue).
- **Japanese** — basic.

Leadership isn't about knowing the most, doing the most, or always front-running. It's about making the people around you better — so that, together, we multiply what we can do and grow one percent better every day, in ways that last.
